

Glitter & Feathers

Most of us do love a little sparkle and fancy feathers - the problem is our environment isn't so keen.

Given one of our principles is to leave no trace, it is important that we think about everything we pack and bring to Blazing Swan.

Does your favourite sequin jacket shed when dancing?

Is your feather boa headpiece going to hold up for the week?

Will glitter on your face (even a tiny weeny spec of it) come off when you are off on your adventures?

If the answer is yes to any of the above, then it doesn't belong at Blaze.

The goal is to leave the land as we found it, or better. We spend countless hours picking up moop, the easier this is the better.

LEAVE NO TRACE

Consider your costume choice before leaving for Blazing Swan, we are all responsible for rubbish and there is no garbage collection service and no bins. We must all do our best to make sure that there is no MOOP (matter out of place).

- Think about your choice of costume beforehand
- Remind yourself of the Blazing Swan principles on the web
- Love and care for our land!
