

Illuminating

Dont be a darkwad...be seen and be bright!

Ok, so we aren't in total darkness at Blaze. But it can be dark and others may not see you...especially around campsites and in nooks and cranny's.

Plus it is nice to stand out, it is Blaze after all.

Bikes

Bikes are awesome and easy to explore the Blaze site on.

At night make sure others can see you by decorating your bike with amazingness- lights work best!

Get into the ritual of decorating your bike when you arrive, light up that beast, be seen and look great!

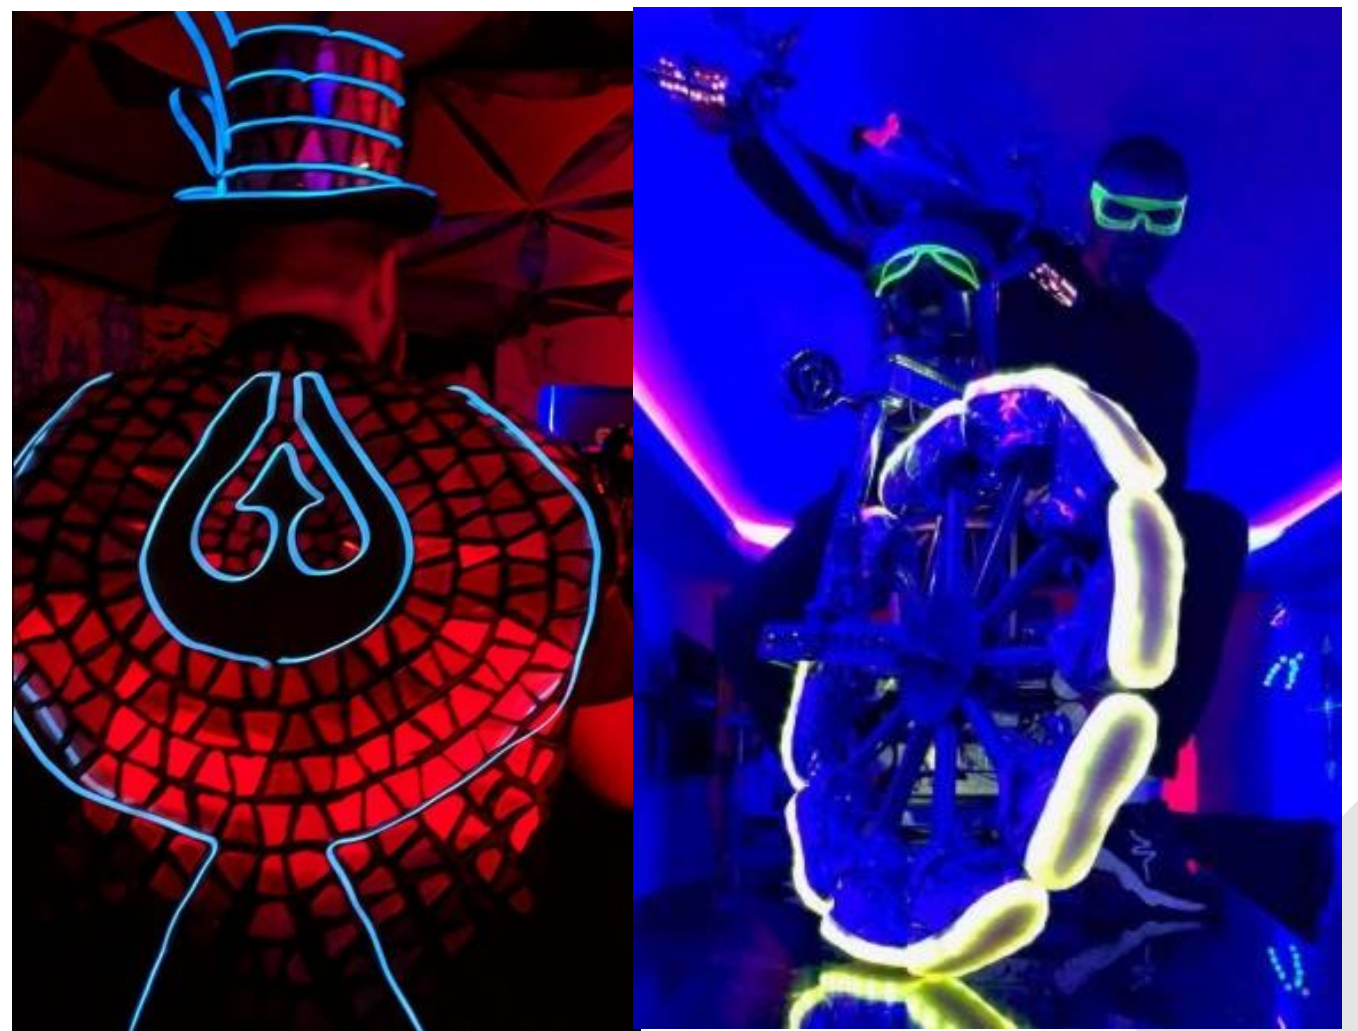

Clothing

Be seen in the darkness- get your glow on! Get creative and make it easy for your buddies to find you when the sun goes down.

Blaze home

Whether your home at Blaze is a camper, tent, car or something else, think about how you are going to recognise it at night.

Yes, you will likely get lost at some point, so think how easy it will be to find your home when it has some light up decor. It also helps when you are crawling back after a late adventure- to see guy ropes and the entrance.

See the light

What to bring

Buy your lights in advance, whether you make and decorate at Blaze or beforehand, the choice is yours!

Below are some things to consider using to illuminate yourself, your bike, your home and anything else at Blaze:

- LED fairy lights
- Glow sticks
- UV paint
- El Wire
