# THE 11 PRINCIPLES OF BLAZING SWAN

Blazing Swan is understood not only as an event,  
but as a way of life lived consistently with these 11 Principles.  
They are meant to be taken as a whole, as a set of commonly-understood values.

## RADICAL INCLUSION

Anyone may be a part of Blazing Swan. We welcome and respect the stranger. No pre-requisites exist for participation in our community. Every person in our community is a valued member.

## GIFTING

Blazing Swan is devoted to acts of gifting: giving freely, without expectations of return or exchange. The value of a gift is unconditional. A gift is anything given in this spirit, whether it is a physical item, a service or performance, or something less tangible, such as friendship or companionship. Everyone has gifts to give.

## DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

## RADICAL SELF-RELIANCE

Blazing Swan encourages the individual to discover, exercise and rely on his or her inner resources.

## RADICAL SELF-EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

## COMMUNAL EFFORT

Our community values creative cooperation and collaboration. Volunteers are the life force of our community. We strive to produce, promote, and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

## CIVIC RESPONSIBILITY

We value civil society. Community members who organise events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants.

## LEAVE NO TRACE

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

## PARTICIPATION

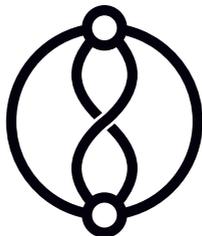

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

## IMMEDIACY

Be Here Now. We seek to overcome barriers that stand between us and a recognition of our inner-selves, the reality of those around us, participation in society, and contact with a natural world. Be aware of yourself, of others, of your surroundings and your place in our community and the world. No idea can substitute for this experience.

# CONSENT

## THE ELEVENTH PRINCIPLE OF BLAZING SWAN

Respect the autonomy of the individual. Every person has the right to make decisions about their own body, property, and personal space.

What you see as a gift might be a curse if it is unwelcome (or unwanted), so when giving a gift, entering someone's personal space, taking a photo or video, or using someone's property, **ask permission first**. Only proceed if there is consent between all parties.

Do not ever assume that you have consent based upon what a person is wearing or how they are acting. Consent must be mutual, definite, and given consciously, and persons are free to change their mind at any time.

Remember that consent for one act does not imply consent for all acts, and consent given once does not mean that you have consent every time. **No always means no.**

## COMMUNITY PHOTOGRAPHERS

You can identify community photographers at Blazing Swan with their ID number, so you connect with them later. Don't feel like being photographed? Just say no thanks, and party on!

## ATTACK THE RAMPARTS AND BE DAMNED

Artist *COLIN CHRISTENSEN*

Yes, the fire throwing trebuchet is back. Don't know what a trebuchet is? It is a mediaeval war engine that many will incorrectly identify as a catapult. And it throws stuff. But is it ART? Well, that is for you to determine. Alternatively it is a "big boys toy". It could be an item on a bucket list. Or something that throws some fire into the sky. Or an opportunity for a cool selfie. Regardless of how you see it, you are invited to pull the trigger, shout out something meaningless and launch a ball of fire. So, if nothing else, it is fun. And isn't that what art should be?

## GENUS QUESTIONABLUS

Artist *NIC COMPTON*

As a child (and still) I enjoy beach combing hoping to find some unknown creature washed ashore. As I never did discover this elusive creature I had to create my own. Genus Questionablus is a combination of different species of marine life washed up and decomposing. The sculpture might ask questions of the state of our oceans. The Great Barrier Reef springs to mind. Or is it a great Fukushima fish somehow related to Godzilla?

## UNFURL

*Artist JASON MAXLOW*

In the wake of the timber boom of last century, vast areas of Perth hills forest were clear felled to fuel the fires of industry. As the echoes of axe, saw and steam trains faded across the valleys, a fresh eco-friendly community and way of life emerged from the smoldering ashes. "Unfurl" is a response to the birth of new life represented here in steel as the opening of a blossom and the unfurling of a frond.
