

# HAPPY AS LARRY

17TH-23RD APRIL 2019 KULIN WESTERN AUSTRALIA

WHERE'S THE FUN?

# BLAZING SWAN INC

## COMMENTS FROM THE COMMITTEE

WTF?! If you're reading this there's a pretty good chance you've just made it back "home" to Blazing Swan. Congratulations - it's no small feat to have just got this far.

Over 7 days and 6 nights a technicolour spectrum of events will take place of every imaginable type.

We encourage all of you as participants to explore, engage and partake in the myriad of opportunities that are being gifted to you by Theme Camps, Artists, Musicians, Build Crews and other Volunteers.

An utterly enormous amount of time and effort has gone in to the lead up to the event.

Thanks must go to the Shire of Kulin for welcoming our procession to Town every year along with the Kulin Bush Races and the Lucchessi family for their support and allowing us to use their property.

We would also like to acknowledge the Traditional Owners of the amazing land on which we meet and would also like to pay our respects to Elders past and present.

A special "Tip of the Hat" goes to Larry Harvey, co-founder of Burning Man, who we lost last year. Without him, his vision and his spontaneous gift more than 30 years ago none us (or the other 50+ regional events) would be here.

A final thanks goes to YOU - it's the participants who fill this place with the magic that makes Blazing Swan what it is.

May the 11 Principles guide you on your Journey as we explore what it means to be "Happy As Larry".

Much Love and Respect,  
The 2019 Blazing Swan Committee

[blazingswan.com.au/art](http://blazingswan.com.au/art)

### COMMUNICATIONS

All year around we are still organising and communicating! We need help with things like writing articles, collating Blaze of our Lives, graphic design and website updating. If you have any of these skills we would love to hear from you.

[blazingswan.com.au/comms](http://blazingswan.com.au/comms)

1. RADICAL INCLUSION

Anyone may be a part of Blazing Swan. We welcome and respect the stranger. No prerequisites exist for participation in our community. Every person in our community is a valued member.

2. GIFTING

Blazing Swan is devoted to acts of gifting: giving freely, without expectations of return or exchange. The value of a gift is unconditional. A gift is anything given in this spirit, whether it is a physical item, a service or performance, or something less tangible, such as friendship or companionship. Everyone has gifts to give..

3. DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

4. RADICAL SELF RELIANCE

Blazing Swan encourages the individual to discover, exercise and rely on his or her inner resources..

5. RADICAL SELF EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

6. COMMUNAL EFFORT

Our community values creative cooperation and collaboration. Volunteers are the life force of our community. We strive to produce, promote, and protect social networks, public spaces, works of art, and methods of communication that support such interaction.

7. CIVIC RESPONSIBILITY

We value civil society. Community members who organise events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with local, state and federal laws.

8. LEAVE NO TRACE

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them.

9. PARTICIPATION

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart and create connection.

10. IMMEDIACY

Be Here Now. We seek to overcome barriers that stand between us and a recognition of our inner-selves, the reality of those around us, participation in society, and contact with a natural world. Be aware of yourself, of others, of your surroundings and your place in our community and the world. No idea can substitute for this experience.

11. CONSENT

Respect the autonomy of the individual: every person has the right to make decisions about their own body, property, and personal space. What you see as a gift might be a curse if it is unwelcome (or unwanted), so when giving a gift, entering someone's personal space, taking a photo or video, or using someone's property, ask permission first. Only proceed if there is consent between all parties. Do not ever assume that you have consent based upon what a person is wearing or how they are acting. Consent must be mutual, definite, and given consciously, and persons are free to change their mind at any time. Remember that consent for one act does not imply consent for all acts, and consent given once does not mean that you have consent every time. No always means no.

CONSENT FOR SHOOTING

Photography and issues surrounding privacy and consent have become an increasing concern at Burns around the globe. Always get consent of all subjects before taking a photo – a simple thumbs up / thumbs down might be all it takes. Never take photos of people in private or compromising positions.

DRONES

There are an extremely limited number of pre-registered drone operators with appropriate Blazing Swan and CASA clearances. Their few flights are at a range (typically 30m or further) that does not allow identification of individual participants unless pre-arranged. A daily flight roster is kept at Ranger HQ. Participants may not fly a drone at any time unless they are pre-registered and approved by Blazing Swan.

COMMUNITY PHOTOGRAPHERS

You can spot one of our pre-registered community photographers with an ID Tag and their unique number. Get in contact with them directly about their photography.

## HOW THE STRUCTURES AND BURNS ARE DIFFERENT

### THE EFFIGY

The Effigy each year takes the form of a swan. It is an art piece, a symbol of our city and community.

When you visit The Effigy on your travels through the city, take time to stop, admire its beauty, take photos, revel in its glory and celebrate your time at Blaze.

The Effigy Burn on Saturday night is the climax of the event. It's a time for all our Blaze community to come together, around The Great Circle (burn perimeter), in anticipation of the burn and the party that will follow into the night.

As the Fire Conclave performance begins and The Great Circle is filled with fire dancers, you are invited to clap, cheer and help build the excitement and energy for The Burn.

From the time you arrive at The Great Circle, please respect this boundary and do not cross it. Once the The Effigy falls and it's deemed to be safe, our city Rangers will allow you to move closer. Please respect our Rangers and Fire Safety Team.

### THE TEMPLE

The Temple takes on a different design each year. It is an art piece. But most importantly it's our community's sacred space.

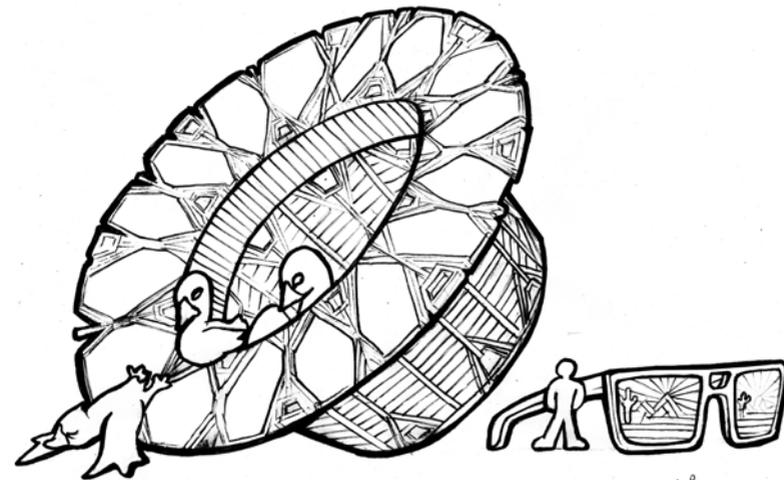

When you visit The Temple, make this a time you feel ready to sit with your truth, your loves and losses. It's a time for quiet reflection. The space asks for respectful silence.

You may wish to simply sit, contemplate, reflect or grieve. This is a place for tears and hugs. It is a place of realness amongst the glitter and noise of our city.

You may wish to write messages on The Temple structure. You can write anywhere. You may wish to leave notes, photos or small belongings. All you leave will be burnt, set free, carried away by the fire.

The Temple Burn takes place on Sunday night, with the structure closed off to visitors from noon on Sunday.

As you gather for The Temple Burn, please do so with respect and reverence. Once The Temple Burn ceremony begins, please be silent. Your silence shows respect for all The Temple means to our community and it's what makes this burn so powerful.

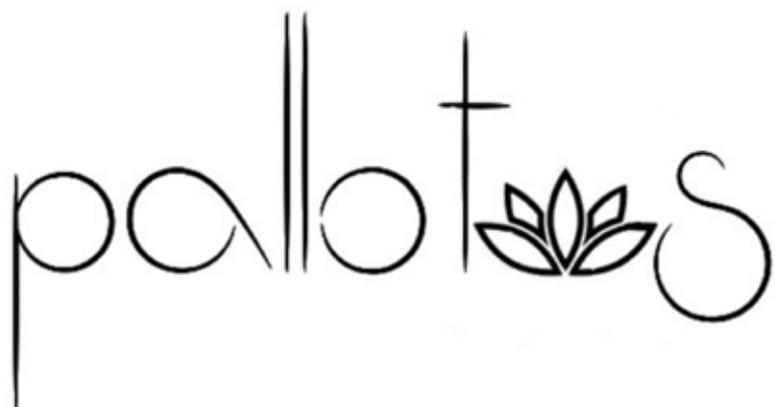

The 2019 Effigy original concept and drawings were submitted by Ryan 'RyGuy' Link, our current Nest Manager and long-time Blazer. Final design and Build Crew Lead was entrusted to Neal 'Big Boss' De Jong with Artistic Lead, no other than the very talented Sonia 'Battlecat' Vivienne-thorp. Our motley crew then existed of Gareth Hancock, Leonie 'Crazeel' Pradella, Kirk 'SpecialK' Hawthorne, Glyn Lanser, Colin 'Cranky' Christensen, Ebba Magnusson and Victor Dirhufvud 'The Lovers', Pamela 'Pamcakes' Johnson and joined onsite by Nomes 'Trash Camel' Demourtzidis and Cameron 'Ronnie' Broad. An eclectic group of Burners from all over the world who have come together to create something special for you to enjoy!

So what is it, why the hat? You may very well ask. If the theme and event name had not already given the nod to Burning Man's founder, Larry Harvey, then our effigy this year certainly has. Larry was easily recognisable and well known for his iconic Stetson hat which you can see in most photos of Larry on and off the Playa.

Which brings us to the matter of the cygnets; the concept story tells of 6 little cygnets which signify the 6 years our Blazing Swan family has come together to celebrate, participate and let go. The unhatched eggs; to signify the unknown and exciting future our amazing community has in front of us. Who knows what crazy and wonderful adventures we will have together!? The effigy build team cannot wait to find that future with you!

Burn Brightly Blazers and please, remember that the effigy is a large piece of art. Many hundreds of hours have gone into making the pieces that come together to form the final piece that we will burn together. We ask all respect be given to the delicate art and implore all attendees to not climb on, move or damage the art in any way. We thank you for your kind consideration.

Effigy Build Crew, 2019  
#teamduck

Temple Pallotus welcomes you to Blazing Swan 2019.

We extend our deepest, warmest, unconditional love to each and every one of you who returns home to Blaze this year.

Temple Crew are excited and humbled to be able to gift this sacred, receiving space to you for a part of your journey that we hope carries on well after Blaze.

In time as you find your way to venture into Pallotus, we would like to take this opportunity to offer an insight into the space that The Temple wishes to create and support. Temple is a ground for inner comprehension of the outer reflections of life, and passages that ourselves and loved ones travel within a lifetime. This space provides support with structure that reflects nature's hardships and the way in which beauty can still persist from dark times. We ask that your journey into Temple respects every body embracing the space, in a quiet, understanding and communal ground where you are encouraged to deeply interact with your own feelings, a place to be vulnerable in your own heart, a place to leave your now unneeded past experiences, and a place when leaving, guides forward your own life journey. Step into Pallotus and let this space support you.

Temple closes Sunday morning and will not be accessible to anyone other than Burn Crew from this time. Please make your visit into The Temple before this as we cannot allow anymore close interaction after this. This is for everyone's safety and we love you. The Sunday evening burn of Pallotus will, this year, be an event of extraordinary ritual. 3000 people gathered in silence awaiting a structure to be guided into its destiny, taking with it all your offerings and troubles. Let this experience set you in trance. Let fire do the talking. Let it resonate with your heart and soul. Allow own embrace and know that you will leave Blaze 2019 gracefully, lighter, and striving to reach new heights.

Peace and love,  
Temple Crew
